PROFILE

Mobile and Full Stack Developer with hands-on industry experience in Android and cross-platform application development. Strong expertise in building scalable mobile and web applications using React Native, React.js, Node.js, and modern REST-based architectures. Proven ability to collaborate in agile teams, integrate secure APIs, and deliver production-ready solutions aligned with business objectives.

EDUCATION

Master of Computer Applications (MCA) | 2024 – Present

Seacom Skills University (SSU)

Affiliated Colleges: NYCTI (NYCTI College of Technical Education)

Nilpur, West Bengal

Bachelor of Computer Applications (BCA) | 2021 – 2024

Maulana Abul Kalam Azad University of Technology (MAKAUT)

Affiliated Colleges: CCLMS (Contai College of Learning & Management Science)

Contai, West Bengal

- Graduated with strong academic performance across all semesters
- Key subjects: Data Structures, DBMS, Web Technologies, Software Engineering, OOPs

SKILLS

Frontend: React.js (Redux Toolkit, Hooks, Context API), HTML5, CSS3, Bootstrap, JavaScript (ES6+), Tailwind CSS

Mobile: Android Development, React Native (CLI & Expo), Flutter, Dart, WebView

Backend: Node.js, Express.js, Laravel, REST APIs, Authentication & Authorization, JWT, File Handling

Databases: MongoDB(Mongoose), MySQL

Programming Languages: C, Java, Python, C++, Kotlin

Tools & Platforms: Git, Postman, Firebase, VS Code, Android Studio, XAMPP

EXPERIENCE

Wekart Incorporation — Kolkata, India

Android Development Executive | Jan 2024 – Sep 2025

- Developed and maintained Android and cross-platform mobile applications using React Native (CLI & Expo), delivering scalable and high-performance solutions.
- Built reusable and responsive UI components, implemented complex navigation flows, and ensured consistent user experience across devices.
- Integrated RESTful and third-party APIs, implemented secure authentication, and handled local/offline data management using Realm DB and AsyncStorage.
- Worked extensively on performance optimization, debugging, and crash resolution, improving application stability and responsiveness.
- Actively involved in Android build generation, Play Store publishing, release management, app versioning, and production bug fixes.
- Collaborated closely with designers, backend developers, and stakeholders in an agile development environment to deliver production-ready features on time.

PROJECTS

College Library Management Mobile App | 2023 – 2024

Tech Stack: Flutter , PHP , MYSQL

- Designed and developed a mobile application to manage library operations including book issue, return, and search.
- Implemented role-based access and efficient data handling for students and administrators.
- Improved record management accuracy and reduced manual tracking effort.

Offline Tambola Game Mobile App | 2024

Tech Stack: React Native, Redux, Realm DB

- Built an offline-first mobile game application with persistent local storage.
- Implemented state management using Redux for improved performance and scalability.

Electronics E-commerce Mobile Application | 2024 – 2025

Tech Stack: React Native, PHP, MySQL

- Developed an end-to-end mobile commerce solution with product listing, cart, and order management.
- Integrated backend APIs for seamless data exchange and transaction handling.

Education Application | 2025

Tech Stack: React Native, Node.js (Express), MongoDB

- Built and integrated secure RESTful APIs using Node.js and Express for real-time data synchronization and transaction workflows.
- Implemented a scalable MongoDB database architecture to ensure efficient data storage, retrieval, and performance.

WebView Mobile App

Tech Stack: Kotlin , WebView, Push Notifications

- Created a lightweight mobile app wrapper for web platforms with push notification support.
- Enhanced user engagement through real-time updates.

ACHIEVEMENTS & STRENGTHS

- Strong problem-solving mindset with a disciplined and goal-oriented approach.
- Highly adaptable, self-motivated, and punctual with a focus on continuous learning.
- Demonstrated ability to learn and implement new technologies quickly.

ADDITIONAL INFORMATION

Languages : Bengali, English (Read & Write), Hindi (Speak)

Hobbies : Exploring new Technologies. Watching Movies & Web Series , Sports ,
